HON. CLAUDE M. JOHNSON of Lexington was forced to give up the Superintendency of the Bureau of Engraving and Printing at Washington; and W. E. CURTIS tells in The Chicago Record how it came to pass.

"In the Bureau of Engraving and Printing all the bank notes, coin certificates, bonds and other money is made," says Mr. CURTIS; "and within the last two years the postage stamps have been engraved and printed there also. The labor unions practically control the Bureau, and have driven out two Superintendents for interfering with their prerogatives. CLAUDE M. JOHNSON of Kentucky, the recent incumbent of the office, gave offense because of his advanced ideas and progressive disposition. He wanted to introduce steam presses for plate printing, with which one man could do the work of twenty, and the presses were actually the invention of one of the employees of the Bureau. But the unions resisted, on the ground that nineteen men would be deprived of employment. They went to Congress and got a clause inserted in the appropriation bill forbidding the payment of money for printing by steam, so the steam presses were sent to the junk shop and the old hand presses, similar to those used in the sixteenth century, were put back. Mr. JOHNSON also offended the unions by admitting boys to the Bureau to learn engraving and printing trades. The union fixes the number of apprentices, both in the Bureau and the Government Printing Offices. No boy can learn one of those trades without their consent, and the boys Mr. JOHNSON had admitted were compelled to leave. For these and other reasons JOHNSON had to go, and the Bureau has been managed by Assistant Secretary VANDERLIP for the last six months."

J. W. Bryan of Lowder, Ill., writes: "My little boy was very low with pneumonia. I called the doctor who gave him Poley's Honey and Tar. The result was magical and pleased the doctor, as it immediately stopped the fatal cough. He quickly recovered. For sale by J. Jas. Wood & Son, Mayville, Ky."

Dr. Charles W. Atkin of Flemingsburg contemplates locating in Colorado.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. R. E. Philips of Pontiac, Ark. "I cured me of bloody flux. I cannot speak too highly of it. This remedy always has the good effect, if not cured, of those who merit. The quick cure which it effects even in the most severe cases make it a favorite everywhere. For sale by J. Jas. Wood & Son, Mayville, Ky."

The Count De Leon Commandery No. 28, of Paris, has elected Miss Lizzette Dickson, daughter of Hon. E. M. Dickson, sponsor for their Commandery at the Triennial Conclave, which meets in Louisville August, 1901.

The readers of this paper will be pleased to learn that there is at least one cured disease that science has been able to cure in all the stages and that it is certain. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and annihilating the cause of the cure. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CROWLEY & Co., Toledo, O. Sold by Druggists. Hall's Family Pills are the best.

to waste, as there is no finished end to cut off and throw away. When you buy three Old Virginia Cheroots for five cents, you have more to smoke, and of better quality, than you have when you pay fifteen cents for three Five Cent cigars.
